

PUBLIC UTILITIES COMMISSION

Press Release

The Public Utilities Commission has given its approval for an interim 10% fuel rebate to the Guyana Power and Light Inc., across all tariff categories, namely, residential, commercial and industrial, to apply to electricity consumption from the month of March 2015.

Consumers whose billing cycle begins in the latter part of February and ends in March shall benefit from the reduction on their entire consumption for that period, and same shall not be prorated in the application of the rebate.
