

PUBLIC UTILITIES COMMISSION

Press Release

Effective from GPL's April Billing Cycle, the Public Utilities Commission has approved:

- 1) A Fuel Rebate of 5% on Energy to Consumers.
- 2) A 5% Reduction on Fixed and Energy Tariff across all categories.

Overall the customer can expect a reduction of approximately 10% on their bills from April Billing Cycle.

The reduction was made possible because of low fuel prices that prevailed during 2015.
